

**TAKING THE CORRECT PICTURE FOR YOUR WEBSITE
WHEN USING YOUR PHONE**

HOW TO HOLD YOUR PHONE TO GET THE PERFECT SHOT

landscape

Portrait

When discussing **orientation** or **direction**, **landscape** refers to an image that is wider than it is tall, that is, shot in a **horizontal** orientation which is perfect to use on **websites**. **Portrait** refers to an image that is shot so it is taller than it is wide which means the sides of your image usually get cut off.
